Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
2-4 people recommended

Before you collaborate

Our team gathered to discuss common problems faced by vehicle buyers and sellers. We observed that users struggle to compare vehicles, understand specifications, and find reliable reviews in one place. We decided to brainstorm a smart vehicle expert solution.

10 minutes

- 1. Focus on the problem: Define what problem participants are trying to solve and what is the goal. Share or select information or a topic to solve.
- 2. Set the goal: Think about the problem you're trying to solve or what you want to achieve.
- 3. Brainstorm: Brainstorm ideas and solutions. Use the problem statement to guide your thinking.

Open activity

Define your problem statement

How might we create a smart vehicle expert app that helps users compare vehicles, access real-time updates, and receive maintenance guidance in one platform?

10 minutes

Problem statement

How might we create a smart vehicle expert app that helps users compare vehicles, access real-time updates, and receive maintenance guidance in one platform?

Key rules of brainstorming

To run an smooth and productive session.

- 1. Stay on topic.
- 2. Encourage wild ideas.
- 3. Build on others.
- 4. Stay focused.
- 5. One idea at a time.
- 6. No criticism.
- 7. Go for quantity.
- 8. Encourage the team.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstorm

We've shared our ideas that came to mind and addressed your problem statement.

1. Smart vehicle expert app

2. Real-time updates

3. Compare vehicles

4. Access real-time updates

5. Smart vehicle expert app

6. Real-time updates

7. Compare vehicles

8. Access real-time updates

9. Smart vehicle expert app

10. Real-time updates

11. Compare vehicles

12. Access real-time updates

Step-3: Idea Prioritization

4

Prioritize

You've now shared all the ideas on the screen page about what's important moving forward. Place your items on this grid to determine which ideas are important and which are feasible.

30 minutes

Tip
By placing the items in the top-left quadrant, you are indicating that they are important and feasible. The bottom-left quadrant is for items that are important but not feasible. The top-right quadrant is for items that are feasible but not important. The bottom-right quadrant is for items that are neither important nor feasible.
